

Planimetric base from U. S. Bureau of Mines planetable sheets

Massive pisolitic bauxite
Type 2 deposit

Subsurface contour on the post-Midway
erosion surface
Interval 5 feet

EXPLANATION
 10
 8
Isopachs on bauxite of 32 percent or more
available alumina
Interval 5 feet with 8-foot isopach added

USBM drill hole

TRUE NORTH
MAGNETIC NORTH 7°
